HOW WE LIVE, WHERE WE LIVE

Spring 2011

SPECIAL DESIGN
AWARDS ISSUE // 184
Winning Designs

first place

ZAREMBA & CO.

This lighting design unites spaces that would otherwise be visually separated at night. Torches on both levels provide visual cues for each gathering space. Warm glows from the pool house and outdoor fireplace soften the hardscape. Down lighting is placed to cast shadow patterns.

Dakota mahogany carmelian granite is the primary material used to create garden walls, paths, steps, terraces, sills, countertops, fireplace mantels, and coping for the lower pool. Horizontal surfaces are flamed to create a softer look that's slightly rough to the touch but comfortable for walking and sitting.
